Hi Tim,

The attachments are the data I can find on FRED database. No luck for me to get data from IFS. I got an error all the time. I will try again later.

I am not sure about the series for TWI real exchange, TWI nominal exchange rate, Board of governors broad index real ER and nominal ER. I got annual and monthly Trade Weighted Exchange Index: Broad founded on FRED (TWEXBANL, TWXBMTH) from FRED. They are series of a weighted average of the foreign exchange value of the U.S. dollar against the currencies of a broad group of major U.S. trading partners.

Regards,
Varang
